Just as we are going to press the opening game in the Bow Valley League was played between Strathmore and Glenview on Tuesday evening at Glenview. The result was 9-5 in favor of Glenview.

The first home game will be on Friday of this week with Carleton, at 6:30 p.m.

The Strathmore May 24th, was the first time for several months that the team was really lively. The two ball games and the enjoyable games in the evening were played by the Strathmore Club contributed to an enjoyable day. There was a very good turnout to the dance, and as a result of the day's doing the Strathmore net received \$150, which goes towards paying for suits for the players.

The Strathmore team is now lodged out in a complete set of new uniforms, purchased through Mr. T. E. Wright.

The charge for the league teams has to be played at Strathmore has been set at 35c per head.

Strathmore's new pitcher, Thomas, proved to good advantage in his first game on Thursday, and will be in a position to lead the team this year. It is hoped to win in Dick Jacobs and Jan Klummet as a battery in some of the games during the season.

## Heavy Rainfall

Crop Prospects Very Good

The month of May, now at its close, has been the most favorable that we have experienced for some time past.

The dry weather that continued until almost the end of April, though ideal for seedling purposes, created some anxiety, as it gave the appearance of being the commencement of a dry season. This was, however, relieved on the 25th and 30th of April, when 71 of an inch of rain fell, and during the month of May there have been intermittent showers, culminating in a heavy downpour on Sunday last, which was the best steady rain that has been seen in this part of the country for some years past.

The crops are excellent throughout the whole of the district. The grain is standing out well, and has a fine even stand.

The rainfall at Strathmore for this month, 135 inches, is in marked contrast with May of last year, when only 36 of an inch fell.

Dalroy and Carseland have the highest rainfall record for the month, 238 and 236 inches. The following rainfall kindly supplied by the C.P.R. Irrigation Department, shows the rainfall of last Saturday and Sunday, and also that till the 25th, at various points throughout the Western Bow Valley.

The fine rain of Saturday and Sunday, May 26th and 27th, has averaged 1 1/2 inches over the Western Section. The record of May up to date is as follows:

	May	Total to 26th-27th	May 28th
Strathmore	6.97	1.83	
Carleton Place	6.83	2.26	
Crowfoot	1.27	2.08	
Winona	1.07	1.58	
Carleton	1.18	2.10	
Glenview	1.63	1.16	
Dalroy	1.51	2.26	
Average	1.60		

Having about an inch of rain all at one time is very favorable for the crop and better than scattered showers amounting to even a larger total.

It should be kept in mind, however, that in 1915 there was 3.42 inches of rain in May and 4.77 in June, hence maximum crop production still depends on irrigation or more rain. It is advisable to continue irrigation at the present time, and until further heavy rains have occurred.

## Strathmore Stamped to be Held July 19th

Decision to stage a real old time stampede at Strathmore on July 19th was arrived at with much enthusiasm at a largely attended meeting held in the Memorial Hall, on Monday evening.

Besides townsmen, there were present a number from the country and several well-known riders, including Dick Cochrane, Buck Payne, Archie and Pete McLean.

Thos. E. Wright was elected chairman of the meeting, and B. J. Craddock, secretary.

It was decided unanimously to hold the Stampede on July 19, the third anniversary of the opening of the Great West Memorial Hotel, and to devote all proceeds over and above expenses to the hall building fund.

F. A. Cott, who has had considerable experience in connection with the Nightingale Sports, outlined a programme for the Stampede, including bucking contests, steer riding and roping, polo, Indian races, basketball, etc., ending up with a big dance in the evening.

The best site for the Stampede was determined to be the vacant land between the school and Sixth Street, where a half-mile track will be placed.

It was also decided that the permission to use the grounds will be given. Work on the grounds will be commenced as soon as possible.

By unanimous motion Mayor Bell was asked to dedicate the 19th a public holiday.

Committees were appointed as follows:

Hay and Mr. Denny Howell were runners-up in the contest. In the evening the Ladies' Aid entertained the large gathering to a delightful foot supper, from which the Ladies' Aid fund was evidently benefited. ## How To Improve Conditions

Editor, Strathmore Standard.  
The general topic of discussion at the present time among the farmers is the announcement from the C.P.R. officials that they are willing to re-visit the C.A.R. and contract on a new equipment plan, and I believe in a short time, perhaps before this article appears, the company will have mailed to each holder of said contracts a statement of what they propose to do.

The company, in this proposition, seems to think they have said the last word in the way of assisting the farmers to remain on the land and make permanent homes.

It is not the wish of the writer to criticize the plan proposed by the company, but did he think it was all that was necessary to bring order out of chaos, this article would not have been written.

We have been informed by the company that many of the farmers have expressed themselves as entirely satisfied with the company's offer. We fear these men have not given the necessary, again they may be thinking only of themselves, as we are apt to do, and are not looking to the general welfare and prosperity of the country.

In some cases we believe the amount owing on the land is more than farms could be purchased elsewhere. The company in taking these farms back, would be compelled to dispose of them for a less amount to a new owner. Why not give the present resident the preference? In other cases farmers who have obligations such as loans from the bank, seed cash loans, etc., no matter how good the crop, will not be able to pay the C.P.R. anything this year. The writer was talking to one large farm operator, and by the way he was here and had the benefit of the warlike price, his statement was "I don't see how I can pay the C.P.R. anything this year." Many others are in the same position, and as the new contract will call for payments of 7 per cent on total debt this fall, the farmers will be up against a default in payment at the beginning, and the same old condition commencing over again, for ever behind—company pressure for payment—result, farmer dispossessed again.

It seems to me that the company could give the farmers two or three years to clean up, and then start on the present proposed system. Then they would lose in interest during these years would be much more than made up in transportation charges. At present farmers cannot produce anything like the amount they should, as they are unable to get the necessary financial assistance.

The Canadian Pacific Railway Company is not the only place we should turn to for a way out of our trouble. It is useless for us to go ahead and try to operate at a loss. The C.P.R. say: (Continued on another page.)

Mr. Thomson looks for great progress in the Bow Valley during the next few years. He expects that the new C.P.R. contract will give the opportunity to a number of the farmers who have been handling large amounts of land to split their farms into smaller holdings, which will result in more settlement and better farming.

Mrs. Thomas E. Wright and son Kenneth are visiting with Mr. and Mrs. Donald Morrison at Okotoks.

Mr. P. de la Be is filed \$50.00 and costs before Justice Lambert and Victory on Friday on a charge of depositing in and upon his premises certain offensive matter. A number of Carlton golfers were to have visited Strathmore on Sunday, but could not make the journey on account of rain.

This year is the 20th anniversary of construction work on the C.P.R. Irrigation project in the Western Bow Valley.  
At the Union Church services on Sunday evening, Rev. Mr. Rowe recently commented that among the good things the risk had brought them were Rev. and Mrs. J. H. Gordon, of Tudor, who had had no small trouble with their car over the bad roads that they were storm-stayed at Strathmore. Rev. Mr. Gordon then proceeded to read the lesson.

## Made From The Mildest Cleansers

Palmolive contains Palm and Olive oils. These oils were the cosmetic cleansers used by Cleopatra and kept her skin fresh, smooth and youthful.

Today their scientific combination in Palmolive produces the most perfect of all facial cleansers. Science has discovered nothing finer, milder or more beneficial for the toilet than Palm and Olive oils.

Artificial applications of rouge and powder may lend your skin the appearance of smooth freshness. But unless you cleanse the pores thoroughly every day with soap and water, blackheads, pimples and other blemishes are sure to result.

Some persons imagine that soap is too harsh for the face. They should try Palmolive. Its mild, smooth, creamy lather, when massaged into the skin, cleanses without the slightest irritation.

You can buy Palmolive Soap at all first-class dealers.

### MONTANA HAS HER TROUBLES

The Scientific Farmer, published at Missoula, Montana, reflects the results of the past couple of years' drought conditions in Montana when it asks: "What is the matter with Montana? During the past two years one hundred banks have failed, twenty-five per cent. of the farms have been abandoned, and fifty-thousand people have left the State."

## Fortnightly Govt. Crop Report

Wheat seeding in the province is finished, and in many sections the crop is up and looking healthy and vigorous. The total wheat acreage will be somewhat under last year, but on the whole it is considered that the seeding was done in better shape and on better prepared land. Oats, barley, and fodder crop seeding is now progressing. In portions of central Alberta, where the early rainfall has been light, some of the oat seeding was held back awaiting rains. The indications are that considerable oats will be sown this year to be cut for a fodder crop.

Most sections of the southern part of the province report good rainfall, and that the grain is coming along in fine shape. In parts of central and northern Alberta there have been good showers, while in other sections more rainfall is needed. On the 22nd a fine rain fell west of Hiley. At Irma there was seven hours rain, and at Vermilion one-fifth of an inch fell. The Grande Prairie district had a good rain on Tuesday, with lighter rains at Peace River and at Beisey and in other sections of the north. Today rain is falling at Edmonton and the showers are reported as far south as Red Deer. Last week frost was reported from some sections, but only in one or two spots was any damage to young crops reported.

From nearly all parts of southern Alberta a large increase in the acreage sown to fodder crops is reported. Considerable new Alfalfa acreage has been sown, also a large acreage of corn and sunflowers, indicating that farmers are giving more attention to fodder crops and to dairying. Sweet clover wintered well in central Alberta. Fall rye in some sections is over a foot high. In places the fall rye winter killed where water hid on the crop or where it was not covered by snow. With anything like a normal supply of rainfall during the growing season the early crop indications would appear to be very fair, the acreage some what less than last year, and the seedling period in most parts very favorable for doing good spring work.

Pasture in the central and northern parts of Alberta is short, and will be benefited by good rainfalls. Last year's supplies of fodder have been pretty well exhausted.

### Grasshoppers

Any danger of a real menace from the grasshopper pest has not yet developed. The whole country was well irrigated last year, and the work done in shooting good effects this season. The Department of Agriculture has the organization already in the field and is well prepared to meet any reports which may arise. So far the reports have been not serious.

## Carsland Holds Successful Sports Day

An enjoyable picnic and sports was held at the Bow River, south of Carsland, on Empire Day, when a big crowd turned out, and an enjoyable time was spent.

Besides the races for children, far men, this men, and other kinds of men and women, a ball game was held between players from north and south of the river, the south side winning. A school boys ball game was also held.

In the evening an enjoyable dance was held in the Davis barn following the sports.

The function was very successful financially, the "P.L." club, under whose auspices it was arranged, realizing a profit of between \$65 and \$75. Carsland plays their first game in the Bow Valley league, when they play Strathmore at Strathmore on Friday, June 3rd. Fans are urged to come in and root for the team. Games are played at Carsland on the 5th.

### PART OF SEDGEWICK FARM SOLD

The Provincial Government has recently disposed of a portion of the Demonstration Farm at Sedgewick, which was established there several years ago. The half-section sold comprised the main part of the farm, and on which the farm buildings were located. The province still owns a half section to the south of the portion sold, and under the agreement the government retains one dwelling and two barns which will be moved to this part of the farm. It is planned to dispose of the remainder of the farm as soon as possible. In the meantime the half section still held by the Department of Agriculture will be rented for the present year.

Under this Act crop mortgages may now be given not only for the purchase price of seedgrain and interest for the current season, but also as security for meat, groceries, flour, clothing, binder twine, repairs to machinery or wages of the labourers engaged in the sowing or harvesting season's crop, collectively called necessities, advanced after April 1st, 1923. The New River District Assoc. held a meeting on June 1st in Nighthall, and our local is sending four delegates, viz: Mrs. John Patterson and Mrs. Thos. Connolly, Mr. A. E. Vigar, and Mr. and Mrs. Connolly.

As Jean Goss is in the fish business, she smiles since the fish run.

## Baseball Notes

The game of baseball on May 24th, were a huge success in every way. The day was perfect; a good many having expressed it to rain, but it did not, and indeed, as much as Rockyford has baseball, the whole community would have felt at all if it had poured down rain. However, the baseball was pulled off, and the first game between Rockyford and the Calgary Mustangs was a splendid game to watch. A few errors were made, we admit, but it was the first game of the season, and we must be a little lenient in our criticism.

The score here 2-4, in favor of the home team, and as Rockyford is an amateur team, made up of local players from being farmers and farm hands, and a few from town, we think we should be proud of the fact that they play a little better game than a team picked from the baseball teams of a city of 80,000.

If the Morning Albertan is an exponent of Calgary's feelings, the must have felt pretty bad, for the article regarding the game in the next morning issue was just down at the bottom of the sport page, under small heading. We would say to Calgary not to feel bad. They have a good team, and may win some ball games yet this season.

The lineup for Rockyford was as follows:

Pitcher (Lefty) p.; M. Smith, c.; Paul Bushman, 1st b.; Billy Miller, 2nd b.; Leon Walker, 3rd b.; Fenton Smith, 4th b.; R. E. Brown, c.f.; S. Buxton, Kennedy, r.f.; R. Knight, s.f.

Calgary—Henderson, p.; Smith, wallo, 2nd b.; Howard, 3rd b.; Watter, c.f.; Castagner, c.f.; P. Card, 1st b.; M. G. S. C. F. M. McNab, c.; Chagnie, 1st b.

The Carbon-Rockyford game was a good game too, and the Carbon boys to make arrangements for the Service, Myer's orchestra was all to be seen with a pep.

We notice Charlie Eiland was a busy man, taking care of all the arrangements.

On Saturday, June 2, the baseball boys are journeying to Edmonton to try their luck at hitting the Calgary Cubs, trophy. They expect to play a double-header on Monday, June 3 (King's birthday) and if necessary a third game on June 4th.

If the roads are good and car travel is possible, they will not leave until Sunday morning, so that if there are any fans in the district would like to drive up with them, the boys will be more than glad to have them along. In fact, if they will carry a ball or two or so with them their gas and oil would be found.

The youngest son of Mr. and Mrs. H. E. Brown met with a serious accident on Tuesday evening, the 22nd. While Mr. Brown was putting his horse in for the evening, one of them kicked the little fellow in the forehead, cutting it open and Dr. Tiffin thought the skull was fractured a little. He was rushed to the local hospital immediately, and given all possible treatment, but it was a few hours before it was known how serious the wound was. The little fellow never lost consciousness from the first. This made the situation a little more hopeful. On advice of Dr. Tiffin, he was taken to Calgary for special treatment. We sincerely hope to see him back soon, with all danger past.

## Rockyford Locals

Sunday, June 2nd, is Corpus Christi Sunday. Corpus Christi means "The Body of Christ." This Feast is celebrated on the first Thursday after Trinity Sunday, with the external celebration transferred to the following day. St. Rita's choir will read devotional and certainly beautiful music for this glorious feast. The Mass on Sunday will commence sharp at 9 a.m. and will be the only Mass said in Rockyford on that day.

Rockyford and vicinity have had a splendid rain. In fact the rain of Saturday night and all day Sunday, seemed very general. A nice shower fell Saturday forenoon, which wet, in cultivated ground, nearly an inch, but the writer took a shovel Sunday evening and found the earth real wet down seven inches in cultivated ground. The whole community feels elated indeed. It is quite the opinion that on properly cultivated land a crop is assured if we get a few showers to help filling. These rains at a distance and interested in this part of the province will be glad to read this.

The village council of Rockyford, opened their regular meeting on Monday evening, May 21st, but as there was other very urgent things of a private nature for some of the council to attend to, the meeting was adjourned until Friday, the 25th inst., at which the council of revision was held.

Previous minutes appeared and read. A tender of C. Miller to express package man, once per week at the each, was accepted.

By-law number 15 regarding speed limit within the village was read and passed. The speed limit to be fifteen miles per hour. This would not only to cars or motor vehicles but also to riding and driving horses.

An endeavor is being made to secure a place for the erection of horse stalls, where vendors can keep their horses and feed within the village.

Other two resolutions in connection to be dealt with after which the assessment was adopted.

After the passing of some bills the meeting adjourned.

A 500 mile cruise in Ocean waters, via Grand Trunk Pacific steamships, from Vancouver to Alaska Coast, along the "Inside Passage," affords all the delights of ocean travel combined with superb scenery. It is impossible to over-estimate the value of a sea trip as a restorative for tired mind and body. Seated on the spacious decks of the S.S. "Prince Rupert" or S.S. "Prince Geo." looking over the wild waste of waters, inhaling the invigorating purity of salt sea air, one is enraptured by the subtle presence of the sea, the languid swirl of the waves, and the wash of the water against the ship's side. The above pictures give an inkling of the jolly times spent on board one of these splendid steamships; every hour being filled with enjoyment, whether spent in contemplation of the glories of nature or in the happy social life which develops as the journey proceeds, with deck games, concerts and dancing.
